

BIANCA & FRANKIE:

Bianca is the daughter of Erica Kane. Erica is a very successful business woman in fashion and cosmetics and is quite famous. Bianca wants for nothing. However, she is a very lonely, troubled young woman. Her mother has had many disastrous relationships leaving Bianca very insecure and in search of love.

Bianca met Frankie a few weeks ago at a bar. They have developed a close friendship and when Frankie said she didn't have a place to live any longer, Bianca offered to take her home to stay with her until she could get on her feet again.

There hasn't been a sexual relationship between these two gals but it certainly seems like a possibility. Bianca is drawn to the dangerous side of Frankie. Frankie has been "acting out" her whole life.

Frankie is a street kid. She has had to struggle for everything and always seems to be in trouble. These two seem to have gravitated to each other ... both looking for excitement and someone to love. Frankie is covering the fact that she is uncomfortable in this house; meeting Erica Kane and doesn't know how to tell Bianca.

Bianca underestimated how intimate this relationship could become and how volatile Frankie is. What's next for these two?
